Assistant Postmaster Harry Taylor
dies today from active service in

has been connected with the local

Mr. Taylor after a brief rest will
probably take active charge of his sta-

CARPENTERS' UNION HOLDS BAN- QUET.

In their hall Friday night the local
Carpenters' Union held a banquet and
smoker. The tables were laid for 150.
When the time came for the entertainment
the tables were filled by the fellow-crafts-
men, their wives and children. It
was a place good to be present at.
The hearty fellowship warmed the
cockles of the heart and there was
good cheer and plenty of refreshments.
At a late hour the carpenters and their
guests took their departure, feeling it
an evening well spent.

SAW OLD YEAR OUT

Hundreds in Maysville Gathered In
Churches and Homes To Greet
the New Year.

The year 1915 is now a "has been,"
and last night as the bells tolled 12
o'clock there was a mighty clangor
all over the city and land announcing
the birth of 1916.

Several of the Maysville churches
united with the Third Street M. E.
church last night to watch the death
of the Old Year and the birth of a
new one.

From 9 until 10:15 o'clock a very
interesting program consisting of
short talks, readings and songs, deli-
ghted the large crowd present.

From 10:15 to 11:15 a social hour
was enjoyed. Refreshments were
served, a splendid number of the
league's paper was read and other so-
cial diversions were enjoyed.

From 11:15 until midnight the Com-
munion of the Lord's Supper and a
consecration service was held in the
upper room of the church.

At the Second M. E. church, South,
another interesting program was car-
ried out.

From 8 to 9 o'clock a prayer service
was conducted by the pastor.

From 9 until 11 a program of songs,
addresses and readings was greatly
enjoyed.

From 11 until shortly after midnight
a consecration and altar service was
held to pray the Old Year out and the
New Year in.

At various Maysville homes gay par-
ties were held to inaugurate the com-
ing of the New Year.

Incidentally the passing of 1915
marked the passing of Maysville's
saloons. Nearly all the saloons had
sold their stock of goods before 11
o'clock, and closed up shop. One sal-
oon closed early in the afternoon on
account of having run out of a stock
of "wet goods."

Goodbye, saloons, goodbye.

ered the most consistent and regular

ever realized for tobacco according to
the grade ever sold since Maysville

there is something in the selection of
tobacco seed, every high priced crop
sold was from seed furnished last ses-

house.

Supervisor's Report.
The bells have rung on the 1916
market. It closed high, very high. We
sold Friday 206,205 pounds at an av-
erage of \$11. The factories realize this
is a short crop and unquestionably
the market will keep strong. While
I see no indication of any decline, I
can not say to any that they can ex-
pect any advance and would advise to
sell as fast as ready.

LOOKING A YEAR AHEAD.

We are face-to-face with the problems of another year. It may be as much or little, as we choose. The question is, what do we do in the parlance of the street, "it is up to us."

Our need is greater commercial activity. But how are we to promote it? A closer community of interests between the farmer and the town man and his family. In many ways each is cut upon the good will of the other, but few of us seem to his.

Our past farmers have been shipping their products away in small quantities and realizing small profits while the rapacious middlemen have rolled in the gold that should have found its way back to the farms. And the loss to the farmer is likewise a loss to the town and the community in general.

We should not permit another year to go by without remedying this glaring defect in our system. It can be done.

The business men of Maysville should all get together and devise some method whereby they can market the products of all of the farmers quickly, economically, and without the aid of so many hungry go-betweens. It may take a little brain work, and a trip or two to some central market in order to put the scheme into practical working order, but it can be done if it is undertaken in the right spirit.

When the business men look after the interests of the farmers in this respect the farmers will reciprocate by giving them the immense volume of their business that is now going to other sources.

An agricultural clearing house is needed in Maysville. The new year should see a movement on foot for its establishment, and the end of the year should see it in practical and successful working order and with everybody happy and satisfied.

Too many of us are strangers to each other in this community, where we should all be brothers and dwell together in unity for the common good of all.

And that is because there are entirely too many hard and fast cliques and sets, with each immersed in its own shell and never a peep at the light of outer day.

We need a common ground for meeting, where neighbor greets neighbor and the stranger finds himself at home and among friends. If co-operation is good in commercial affairs it would be of equal benefit in private and social life. It would afford us a more intimate knowledge of humanity and a broader perspective of life, and the resultant spirit of good fellowship would be felt in a thousand ways.

A year of "getting together" would stamp a wonderful imprint upon the heart, the soul and the conscience of this community.

We can materially benefit Maysville and Mason county if we begin right now to make it a year of production and prosperity. It would be difficult to find one among us who could not in some manner increase the result of his labors during the coming year, and with each of us persevering to this end the year's profits would mount high in the financial column of local history.

While considering our own individual interests we might dwell on those of the community in which we dwell, for what is of all of the people is of equal value to us. We can without detriment, or inconvenience, or expense at all remember that we are all neighbors, and friends, and brothers, one to the other, to the end that peace, harmony and happiness be our lot for the coming year.

BIRTH OF A YEAR OF WHAT?

With the birth of the new year the question will naturally arise, "all it be peace, or war? Will it be plenty, or want?"

No human being can answer that question today, though some make a ludicrous bluff at doing so.

No time in the life of the present generation has the birth of a new year been fraught with so much uncertainty with regard to the world in general and our own country in particular.

All hope and pray that the war may end and that the world may return to some semblance of sanity and commercial stability. But there is no certainty—only an intense longing for something that is not.

We are pinning our faith to the ability of our country to keep free from foreign entanglements, but again there is no certainty—only an abiding faith that may be founded upon the phantasies of our dreams.

We are looking and longing for the day to come when men will cease to butcher one another and return to the more humanizing results of a peaceful life. But our longing results only in more longing. There is no peace.

Anticipate a year of great commercial prosperity for the people of our country, and it will be theirs if no unforeseen combination of incidents overturn the tranquility of the nation. But in there is an "if," and the "if" is not of our making.

There is a year of unexampled activity among the farmers in the fields, and in all of the marts of trade, but much of it will depend upon the actions of other nations than ours. And we are today a government and a people without friends among other peoples of the earth.

We have grown and expanded and developed until we are the richest of all the countries of the world, and yet our great wealth is only an actual menace to our peace and security of the future, for the nation that is hungry for gold will not be choicer in its mode of attack when the time for invasion comes.

But let us face the future with optimism and with faith, with eyes open to every essential fact, and with a firm determination to persevere and to conquer in the face of all obstacles.

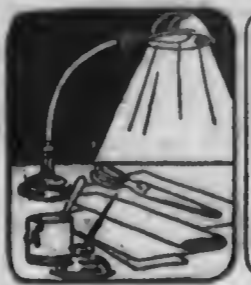

Let us dare to be just and right in all our dealings with nations and with individuals and when sanity returns to the world we will have won.

Let us put our own house in order by placing the country in a state of defense sufficient to insure us from attack from without, and let us give the world to understand that we are a just and sane people, that we are not to be taken by any man or coalition of nations, and that we have nothing to fear from any power that may be arrayed against us.

EDITORIAL SIDELIGHTS

It is customary for many newspapers at the close of the year to print a record of events happening in the twelve months. These reviews are instructive, but at best they convey little suggestion of the real spirit of a period of time.

History seems one long record of wars, battles, personal conflicts of kings and emperors. These are not the most vital facts. The really significant events are the progress of education, individual liberty, political democracy, scientific discovery, technical arts, invention, economic prosperity of the common people, advance of moral ideas. The historian may not say much of these points.

What will be the great events of 1915, as seen by the future historian? They would hardly be any battles, for these have not been decisive. The triumphs of armies, candidates, parties, laws, often seem at the time to mark a great era and assure human

betterment, yet such hopes often prove illusory. Real progress is very intangible, a thing of the human spirit.

It would seem as if 1915 and its events must strongly emphasize one idea, the value of systematic organization, working in unity for community ends. Disciplined unity has enabled Germany to win marvelous successes. It has enabled France, with its smaller population, to make a showing that many people would have thought impossible for a democratic country. Lack of unity and discipline has made the English results disappointing.

This is an idea that applies to the greatest nation and the smallest village alike. Negative criticism destroys power. The people who seek their own advancement, regardless how such advancement affects the whole community, defeat their own ends. They share in the ill results of the community inefficiency which they do so much to bring about.

Big Crop of Honey.

(Pendletonian.)

Pendleton county has produced a wonderful crop of honey this year. Mr. George Shotwell of Butler, gathered 10,000 pounds from two bee yards, one in Pendleton and the other in Bracken near the Pendleton line. Several beehives have done as well, and one claims to have saved 35,000 pounds.

Clothespins Saves Baby.

(Sturgis News-Democrat.)

Last Friday afternoon little Eva Padgett came near getting drowned. Mrs. Padgett was sewing and the little child, aged 20 months, was in the yard at play. When one of her neighbors called her to the back fence to borrow some clothespins Mrs. Padgett discovered her baby's feet sticking up out of a big wooden tub. On reaching the baby it was past crying, but in a few minutes it was all right. The tub only had about two gallons of water in it. Mrs. Padgett seems to think that the loaning of her clothespins saved her baby's life, for she was busy and perhaps would not have come out of the house for some time.

Veggmen Get \$175.

(Jossamine Journal.)

Some time Saturday night thieves entered the grocery store of Combs Bros., in Herveystown, and secured about \$175, \$40 of which was in checks. The thieves entered and left the store by one of the windows in the rear of the building. Mr. Combs said the safe was on the half-lock notch when he left that night, and that the one who did the work either knew how he had set the safe lock or was a professional at the business. No trace of the robbers has been found.

Much Money For Turkeys.

(Shelby News.)

L. G. Smith & Company finished receiving and dressing turkeys for the Christmas market Tuesday. They killed a total of 11,351 turkeys for Christmas, for which they paid the farmers and their wives a total of \$25,703.66. Counting those they received for the Thanksgiving market, they dressed a total of 18,429 turkeys for which they paid \$38,614.80. The labor bill for handling and dressing the fowls totaled \$2,062 and the express and freight bill in shipping them to the East amounted to \$2,230. In 1914 they received 24,000 for which they paid \$29,500. The quality of the turkeys was better and the price paid for them this year was higher, and as a result the farmers received nearly as much this year for 18,000 as they did for 24,000 last year.

WASHINGTON THEATER

UNCLE SAM BEGINS COMMUNITY ORGANIZATION.

Washington, January 1.—One of the most interesting of the new governmental activities which are spreading the influence of the national government into the every day lives of the American people, is the organization of school social centers. This work began formally today, when Dr. Edward J. Ward of Wisconsin, assumes charge of the new sub-bureau of the United States Department of Education, which will have supervision.

The importance of the new step is far-reaching. While the use of the schoolhouses as forums or organized discussion is the basis of the work in which Ward will engage, he will also furnish expert information with regard to the whole field of community organization, including the use of the nation's common school system as the machinery of industrial and social adjustment, as the means of Americanizing and assimilating the im-

grant population, and as the central means of organizing the nation's leisure time for wholesome and constructive recreation.

The federal bureau of social centers will work with state and local organizations, and with the religious boards who have adopted the idea of using the rural churches as community centers. To put the schools and the idle churches into use in the every day life of Americans as an Americanizing, industrial and social and educational influence of the broadest character, is the object of the government officials.

LEAP YEAR WITH US AGAIN.

Even in the midst of war's alarms and the busy upbuilding of business, the romantic fest must not be overlooked that the new year which opens today is "leap year." From now on the hatcher is supposed to be on the defensive; at least the jokesmiths will have it so. The weaker and more angelic sex may now forget the customary shyness of their kind and put the reverse lever on conventions by popping the question to the faint hearted. They may pop and they may not, they may win a hubby and they may not. Statistics fail to show the results achieved in other leap years. But there will never be a lack of topic for talk during the year. Perhaps it will sound like a relief from the weather talk, but it is bound to be popular before the 366 days have expired.

Why and when it became a year for the "female of the species" to propose matrimony to the male is an unanswerable right, without loss of maidenly dignity, is not set down in tradition. Possibly it was inspired far back by a feeling of gallantry, ordaining that the girls should be given a chance at playing the principal role in the lottery of marriage. Or perhaps, as the skeptics are wont to think, it is just a huge joke in itself.

As to the origin of the name "leap year," it undoubtedly arose from the fact that any date in such year after March 1 "leaps over" the day of the week on which it would fall in ordinary years.

WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Many Aches and Pains of Maysville People.

As one weak link weakens a chain, so may weak kidneys weaken the whole body and hasten the final breaking-down.

Overwork, strains, colds and other causes injure the kidneys and generally when their activity is lessened the whole body suffers.

Aches and pains and languor and urinary life frequently come, and there is an ever-increasing tendency towards dropsy, gravel or fatal Bright's disease. When the kidneys fail there is no real help for the sufferer except kidney help.

Doan's Kidney Pills act directly on the kidneys. Maysville testimony is proof of their effectiveness.

Mrs. S. Neal, 497 W. Second St., Maysville, says: "One of my family had a great deal of trouble from a lame back and weak kidneys. Doan's Kidney Pills made the patient better." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the name that Mrs. Neal recommends. Foster-McBurn Co., Props., Buffalo, N. Y.

what we do sell. We appreciate selling high priced crops and choice baskets of Tobacco; but, we are more concerned about what the average of the market is and how we are standing, with reference to the average.

What one crop or one basket brings only helps one seller; but, what the average tells the tale for all the people. As long as we are able to sell Tobacco above the average of the market we shall continue to feel that we are rendering our full duty to our customers, the people and the market. As you know we do not buy any crops with a view of "boosting" our average. We simply sell everybody's Tobacco as it comes, giving to each crop the same care and attention and sorting every load thoroughly.

Last week the market

averaged \$9.87

The average in our House was

or, 25 cents higher than the market.

That is the chief reason why you should sell your Tobacco at the

HOME, CENTRAL, FARMERS AND INDEPENDENT HOUSES.

And, there are other reasons why you should do so among which are the fact that you can get quickly unloaded and promptly sold. Never crowded and always have good light. In addition we do not employ anyone that speculates in Tobacco. Our officers and help cannot buy your Tobacco low so that they may resell it at a profit. We do not permit that in our Houses. All of our efforts are given to the sellers. We are just trying to sell Tobacco and sell it well. Simply that and nothing more, and we mean to keep our business clean.

We invite Growers and Sellers to call at our Houses and see how carefully we SORT and handle all Tobacco and ask them to make any suggestions that they think will improve our methods. We are always glad to get suggestions from Growers and Sellers. We want the Maysville market to be clean and satisfactory. We offer no special favors to anyone and play no favorites. We take the same good care of all and are

SUNDAY SCHOOL LESSON.

Lesson 1, January 2.
"THE ASCENDING LORD"
Acts 1:1-14

(By Rev. A. F. Stahl.)

Introduction.—We will study this year one of the most interesting books of the New Testament, "The Acts of the Apostles," which was written by Luke, one of the Apostle Paul's traveling companions. He wrote also a biography of Jesus. He considered this a continuation of the story of that life. For the first contained an account of what "Jesus began to do and to teach." In beginning this study, then, it will be seen that we are at the very threshold of the church which Jesus was to build. This church was not to be built upon the Jewish church foundation, but upon the fact of His Sonship. Upon this fact, a church can be organized anywhere. The person of Jesus is the important thing now as it was then, "To join the church" should mean to be united to Christ.

The Lesson Proper.

These verses divide themselves under four heads, as follows:

First—"The Talks Concerning the Kingdom." The resurrection of Jesus is here mentioned as proven true by eye witnesses. For forty days Jesus speaks to his disciples about the "things pertaining to the Kingdom of God." Those must have been interesting days to the disciples, as He enlarged their conceptions of the new religion. Their narrower Old Testament ideas gradually gave place to this new idea of God and man and duty. They were told to wait in Jerusalem until they should receive the Holy Spirit (Baptism of the Spirit) after which they would be His witnesses in an ever-enlarging territory, until the whole world would know of Christ's coming and His mission.

Second—"The Ascending Lord." While He was talking to them He was taken up out of their sight. The cloud which hid Him hid Him yet. Only by faith can we see Him now as He sits on the throne in heaven.

Third—"The Promised Return." Beside these astonished Apostles there stood two angels who, as all angels do, resembled men, said to them: "He shall come in like manner as ye beheld Him going into heaven."

Fourth—"The Praying Apostles." Then these eleven Apostles returned to Jerusalem and with others to the number of 120, formed a prayer meeting, where in an upper room and in a place in the Temple (Acts 2:42) they continued to pray and sing praises to God.

Golden Text.—"When He ascendeth on high, He led captivity captive and gave gifts unto men." Eph. 4:8.

MAYSVILLE MAN APPOINTED

Member of the Membership Committee of the Navy League of the United States.

Washington, January 1.—Mr. H. P. Downing and Dr. Thomas N. Pickett of Maysville, Ky., have been appointed to the membership committee of the Navy League of the United States and will help to represent that organization in this district in the active, aggressive campaign which it is carrying on in all parts of the country in behalf of adequate preparedness against invasion and disaster.

He will co-operate with the members of the Navy League's state committee for Kentucky, and will lend his energetic and enthusiastic support to the work undertaken to consolidate and organize the overwhelming sentiment of thinking people of that state in behalf of measures of adequate preparedness. A special letter has been forwarded to Mr. Downing by the Navy League notifying him of his appointment.

LOSS BY THEFT.

Mr. J. H. Solister was so unfortunate on Thursday night to have thieves break into his smokehouse and steal five hams, five shoulders and three sides, besides taking quite a few useful farming implements. They were, however, very considerate, and left a ham, a shoulder and three sides and all the lard. Mr. Solister thinks the work was done while a train was passing his house and the noise of the thieves was drowned out by the noise of the train.

MALICIOUS DESTRUCTION OF PROPERTY.

Some people never know where innocent fun and amusement end and violation of law and decency begin. Such a one Friday night pulled up about eight feet of the hedge surrounding the lawn at the High School building. If caught, the offender should receive the full penalty of the law.

John L. Fulton, aged 68, father of County Judge C. W. Fulton of Fleming county, died Thursday.

CITY WINS SUIT.

The city of Maysville won the suit filed against it by John Moran of Cincinnati, for damages to the amount of \$1,000, which he claims was done to his property when the old Gold Flour Mill fell on it several years ago. The case was decided in Circuit Court Friday and will be appealed.
